be available every day.

Sustainability

Our 'B corporation certified™' disposable partner 'Vegware' offers a full range of plant based and compostable packaging from coffee cups, lids and cutlery to napkins and straws.

We are proud to service 'B corporation certified™' Jude's ice cream whom boast a 21% carbon footprint reduction since 2020, and 75% of product released in the last 12 months was plant based.

Sustainable sources of meat and fish / higher welfare standards

We source with ingredients that are 'Red tractor certified™' suppliers that ensures best practice and legislation that cover animal welfare, food safety, traceability and environmental protection.

Local ingredients

Sourcing local ingredients is important for many reasons, we work with Drury's coffee which is located in London and the range is a selection of fine coffees from 'Rainforest Alliance™' Certified farms and tea bags are fully bio-degradable.

Wherever possible we buy local, and in season, which stops us having to rely on imported goods. Where local isn't possible we strive to buy from within the UK for most of our products.

Food waste

Our kitchens are committed to minimizing waste by employing innovative techniques to reduce the amount of waste. The café also offers food waste bins used by staff and customers to discard any surplus food produce.
